

What missing summer games and special Olympics means to me is, that I don't get to see my friends that I like see and the sports I love to play. When I am able to play sport again I am going to enjoy seeing all my friend and be able to give them hugs and high fives again. My daily life has changed to where I am home more with my parents and doing all the grocery shopping every week. I have been staying active by going out walking around my yard and listen to music a lot more. I have been using messenger video chat to stay in touch with my friends and family. My life lesson I have learned is that it is hard to be home for a long period of time with nothing to do. Hope everyone is staying healthy and can't wait to see everyone as soon as it is safe to do so.
